Objective To become part of an innovative industry that provides high quality work for a variety of projects.

Education 2007- Spring 2008 Sheridan College Oakville, Ontario

Computer Animation

An intensive year that provided the skills needed to work in a fast paced industry, follow direction, meet tight deadlines and produce industry quality work.

Fall 2005- Spring 2007 Fanshawe College London, Ontario

Multimedia Design and Production

Course content includes: computer hardware and software skills, digital graphics and graphic design, web site development, computer animation, digital video production, and business theory and applications.

Summer 2005 Laurier Secondary School London, Ontario

O.S.S.D.

Related Experience Present Heaven Scent London, Ontario
www.heavenscent.ca

Web Designer

- Currently re-designing, developing and advertising a new website for an esthetic company
- Working closely with the client to enhance their existing store and online clientele.

2006–present Otherkin Studios Leicester, England

Web Designer

- Created two separate sites. One flash and the other strict HTML
- Worked very closely with the client, sharing ideas and giving step by step progress to ensure satisfaction.

February-April 2007 Cozy House Coffee London, Ontario

Web Designer

- Created a website for this business, allowing them a more effective way of advertising
- Communicated frequently for updates, design changes and expectations.

Work Experience

2003- 2007

McDonalds Canada

London, Ontario

Crew Trainer

- Responsible for being a leader and role model, setting a positive example for crew around me in a fast paced environment.
- Took on extra tasks to assist managers. This included, break plans, sales reports and delegation

Skills

Skilled in: Autodesk Maya, Photoshop and Dreamweaver

Experience with: 3D Studio Max, Flash, Illustrator, After Effects and Premiere.

Have the knowledge and tools to work on projects for both PC and Mac Platforms

Using the above software has given me the ability to apply creative and communication skills necessary to outline, plan, design, and construct a variety of computer generated projects.

Interests

3D modeling, writing, photography, traditional drawing, RPG video games, traveling, reading, and yoga.
